## measuring worksheet-Vertical Blinds

Hints:
-Measure exactly where you would like the blind to fit. (Allowances are made at the factory)
-Use a metal tape measure, measure in millimeters.
-Always measure width (horizontal) first then length (vertical).
-Measure the width at the top, middle and bottom and use the top measurement.
-Measure the length at both sides and the middle. Use the smallest measurement.
Use this information to complete the ordering section on the website.
